

College and Career Access Mentors Workshops Dates

College and Career Mentors support our scholars as they navigate the college application process. From reviewing essays and helping Scholars prepare for interviews to discussing potential majors and initial college course selection, mentors play an integral role in supporting our students' pursuit of higher education. Below you will find the dates for for our monthly workshops.

We ask mentors to commit to attending a majority of the events below. However, we understand that mentors' schedules are often hectic, and that unforeseen conflicts arise. Mentors will be matched with our Scholars in a way that allows for as much flexibility as possible.
